JIOCOIN Vision

JIO is good to go to revolutionize and change the meaning of online shopping and crypto currency. JIO presents to you JIOCOIN, a marketplace designed to give the customers the freedom to shop with crypto currencies and JIOCOIN tokens. A genius unique idea that will be fueled by the local area and its trust. It is the first of its sort to be introduced in Globally.

We have successfully completed our presale phase I and have received massive support and positive response from all across the globe. Myriads of people globally have trusted us and joined our project. Our current account holders have increased to 50K so, considering that, we have decided to remove the minimum and maximum buy limit in the presale of JIOCOIN will not be just another crypto token; it will be a revolution in the world market. A room whose direct control is in the hands of the community and the people. Crypto currency is the next generation, and it's the full trend in the market; we are starting with an initiative to start using crypto currency on e-commerce portals. With the same initiative, we propose to launch an e-commerce portal in the market and use JIOCOIN as a payment method for online commerce. JIOCOIN will never have borders; we want to create a platform where you can buy and invest at the same time.

Thank You
